

# PRE-WORKOUT + HEART HEALTH

GIVE YOUR HEART SOME LOVE!

Support your cardiovascular health with a boost in circulation that starts from day one. Packed with vitamins and CoQ10. This Pre-Workout Cardio Drink with CBD will ensure you get all the vitamins and minerals your body needs for heart health. It is not always easy to get all the vitamins and supplements you need in your diet to ensure your heart stays healthy and strong.

That is why we included 16 mg of CBD per serving, plus CoQ10 (which has been shown to help with symptoms of congestive heart failure), and a multitude of vitamins your heart needs to do its job. We also included potassium - an essential mineral that helps with muscle contraction - and the amino acids Arginine and L-Citrulline for robust blood flow.

Better blood flow helps deliver the oxygen and nutrients your body needs, which promotes vascular health.

## ZORBMAX® DELIVERY TECHNOLOGY

SWYCH® is a scientifically driven technology company, specializing in the development and production of superior wellness products utilizing our proprietary ZorbMax® Delivery Technology. We have solved the limited absorption issues of traditional delivery methods for nutraceutical & cosmeceutical products. Studies show that less than 55% of all supplements ingested orally never reach the cell.

Our products are faster acting, deliver superior absorption & help you perform at your best. We create nutrition particles that are so small, millions of them could fit on the head of a pin. These tiny particles can easily enter your blood stream & deliver the needed nutrition directly to your cells.

**For those who demand nothing but the best!**  
**We deliver “MAXIMUM BIOAVAILABILITY”.**

L-Arginine	500 mg	**
Proprietary Blend	1850 mg	**
Green Tea, CoQ10, Tart Cherry, Pomegranate Extract, L-carnitine, Magnesium Citrate, Fulvic Minerals.		
CBD Isolate (from Hemp Oil)	16.67 mg	

\*\* Daily Value Not Established.

**Other Ingredients:** Erythritol, Stevia, All Natural Flavors, All Natural Colors.

### HOW TO USE:

Mix 1 scoop with 10 or more ounces of your favorite beverage.

## FEATURES & BENEFITS

### Strengthens Cardiovascular System:

Brings back the correct energy production to the heart, restoring its proper functionality. Furthermore, it also protects against oxidative stress, which helps to maintain healthy tissues and protects from chronic diseases.\*

### Gives Energy:

Blocks the adenosine receptors - a neurotransmitter that suppresses brain activity - to prevent them from acting on neurons and eventually building up to the point of causing exhaustion.\*

### Fights High Blood Pressure:

Helps prevent congestion of arteries and aids in prevention of cardiovascular diseases by improving arterial blood flow and reducing aortic blood pressure.\*

### Improve Athletic Performance:

Increases the amount of oxygen in your muscle tissue, which can then help to improve endurance. Improvements in weight training and reduced muscle soreness after working out are both benefits as well.\*

## KEY INGREDIENTS

**L-Citrulline:** An amino acid that helps your body to get rid of harmful substances, particularly ammonia. It also plays an important role in widening your blood vessels (vasodilation) and aids in muscle building.\*

**L-Arginine:** The endothelium is the membrane that lines blood vessels. A smooth, healthy endothelium means less chance of heart attack or stroke. L-arginine may improve endothelial health and lessen chest pain caused by poor circulation. It may also improve blood flow to the extremities.\*

**CBD:** CBD is a powerful antioxidant with some serious neuroprotective properties, which makes it a strong line of defense against neurodegenerative diseases, as well as preventing certain types of free radical damage.\*

**Green Tea:** A natural source of caffeine, making it a great way to perk yourself up when you're feeling tired. Because it is relatively unprocessed, green tea retains many of the phytonutrients that are available in the actual tea plant.\*

**Warning:** Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

**Storage:** Store in a cool, dry place.

## KEY INGREDIENTS

**CoQ10:** An antioxidant that your body produces naturally. Your cells use CoQ10 for growth and maintenance. Studies have shown that CoQ10 may help prevent or treat certain heart conditions.\*

**Tart Cherry:** The various nutrients in tart cherries are believed to be behind why tart cherries have been found to reduce muscle breakdown, muscle soreness, and speed up recovery in resistance-trained individuals.\*

**Pomegranate Extract:** Pomegranates have an impressive nutrient profile. However, pomegranates really shine in their wealth of powerful plant compounds, some of which have potent medicinal properties.\*

**L-Carnitine:** The active form of carnitine that is involved in the production and metabolism of energy that helps boost muscle building and even improve brain function.\*

**Magnesium Citrate:** Reduce calcium levels within the arteries and create a stabilized heartbeat by supporting healthy heart muscles.\*

**Fulvic Minerals:** Attracts electrolytes and other trace minerals to transport nutrients throughout the body, fulvic acid can ensure better nutrient absorption. This also means that it enhances the body's capacity to fight inflammation, thus leading to a stronger immune system.\*
