

# EASE YOUR PET'S PAIN!

SHOW YOUR PET HOW MUCH YOU LOVE THEM!

This beef flavored soft treat is not only for your pet's taste buds, but also for their health! Our CBD Hip & Joint Treats are a wonderful way to help your pet live their best life.

A healthy pet's joints are supported by cartilage in a cushioning effect, to allow for a full range of motion. If the cartilage is weakened by age, damage, or disease, it can no longer act as a cushion, resulting in painful friction between bones. CBD can ease this pain by inhibiting and promoting neurotransmitters to regulate tension in the body. In other words, by targeting brain chemicals and moderating tension, CBD works to alleviate discomfort from joint pain and promote relief.

These Treats also work to help promote calm and relaxation in your pet during stressful situations like thunderstorms, trips to the vet, separation anxiety and more! These chews are great for dogs exhibiting nervousness, hyperactivity, discontentment, or environmentally induced stress. Not only do these supplements help keep your pet calm with a delicious flavor and soft tempting texture, but they are also completely free of GMOs, wheat, corn, soy, and harsh preservatives, for a chew you can feel good about choosing for your furry companions.

### HOW TO USE:

Feed your pet with 1-2 chews daily as part of a healthy routine.

## FEATURES & BENEFITS KEY INGREDIENTS

**Help Treat Joint & Hip Pain:** CBD interacts with a core component of a pet's endocannabinoid receptors in their brain and immune system. The receptors receive signals from different stimuli and help cells respond. This response creates anti-inflammatory and pain-relieving effects that help with pain management.\*

**Reduce Pet Anxiety:** Many things in this world can be scary for our favorite furry companions. Separation anxiety, new environments, fear of fireworks, car rides, and thunder are all phobias which can be eased with CBD.\*

**Improve Mood:** A pet's cellular activators and receptors regulate hundreds of physiological processes inside their body. CBD attaches to these receptors and regulate whatever is out of balance. When their adenosine receptor is regulated, CBD helps boost dopamine levels which product anti-depressive effects.\*

**Taste Great:** Your furry companion will love taking these beef flavored supplements! No need to struggle to trick your pet into taking their supplements here! Just delicious healthy ingredients that will have your furry companion begging for more! \*

**Warning:** Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

**Storage:** Store in a cool, dry place.

\* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

**CBD:** CBD is a popular natural remedy used for many common ailments. It is one of more than 100 chemical compounds called cannabinoids that are found in the cannabis plant, Cannabis sativa. CBD is an appealing option for relief from pain and other symptoms without the mind-altering effects of cannabis.\*

**Vitamin B6:** Helps produce calming neurotransmitters, including serotonin and GABA. These neurotransmitters can help your pet feel more stable and less overwhelmed.\*

**Vitamin A:** Essential for many physiological processes, including maintaining the integrity and function of all surface tissues: for example, the skin, the lining of the respiratory tract, the gut, the bladder, the inner ear, and the eye. Also supports the daily replacement of skin cells and ensures that tissues can produce mucous and provide a barrier to infection.\*

**Vitamin D:** Vitamin D helps your pet's body absorb calcium for stronger bones and muscles so they can stay active and healthy.\*

## KEY INGREDIENTS

**Vitamin E:** A nutrient that's important to vision, reproduction, and the health of your pet's blood, brain, and fur.\*

**Biotin:** Biotin can help in improving the growth rate of your pet's hair, it plays a role in maintaining healthy and strong claws or nails and it also may help dogs with allergies.\*

**Folic Acid:** Necessary for normal metabolic functions such as DNA synthesis and red blood cell production.\*

**Ascorbic Acid:** A vital nutrient for many animals. It is a water-soluble vitamin, which is needed by their bodies to form collagen in bones, cartilage, muscle, and blood vessels.\*

**Zinc:** A mineral involved in skin repair and in making DNA, the cells' blueprint for replication. Zinc plays a critical role in collagen synthesis, immune function, and inflammatory response, it is necessary for proper healing.\*

**Iron:** Iron is needed to make myoglobin, the protein that provides oxygen to muscle.\*
