

STOP B.O. AT ITS SOURCE! ODOR FREE THE HEALTHY WAY!

PREVENT THE STINK, WITHOUT
COMPROMISING YOUR HEALTH!

Provides 24-hour ALL-NATURAL odor protection. Made from natural mineral salts, this is 100% pure and natural—good for you and our environment. This product does not mask body odor like others, it neutralizes the bacteria on your skin before it can multiply and increase the skin's PH level. Goes on clean and clear with no white residue. It won't stain your clothing and will not leave any sticky residue on the surface of skin.

Safe + Effective because we don't formulate with harmful ingredients like Aluminum, Propylene Glycol or Parabens. **Cruelty-Free** because we test on people, not animals. No white marks because we care about your clothes, too.

This is not an antiperspirant. Antiperspirants typically contain aluminum chlorohydrate or aluminum zirconium which plug the pores. Deodorants are generally considered cosmetic products because they simply control odor. Antiperspirants, on the other hand, are considered drugs because they affect the body's physiology.

SWYCH

NATURAL DEODORANT ROLL-ON

Supplement Facts

Ingredients:

Mineral Salt, Purified Water, Celquat.

HOW TO USE:

For 24-hour protection, simply turn the bottle and bring back to upright position before applying to your skin. Apply only to clean skin after a shower or bath.

FEATURES & BENEFITS

Aluminum Free: Aluminum found in antiperspirants breaks down and can be absorbed and trapped in your body. This leads to multiple health issues including kidney problems, bone diseases, dementia, and certain cancers. Our Natural Deodorant has no aluminum, because we believe in strengthening the health of our customers—not harming it.*

Controls Odor at its Source: The unpleasant body odor that is associated with the underarm area is caused by bacteria living there. Our Natural Deodorant helps neutralize said bacteria and inhibits the formation of body odor on your skin, providing you with long lasting protection!*

No Stains: Many people are aware that aluminum free deodorants are beneficial to their health, but did you know they can prevent stains as well? When aluminum combines with sweat, it can create a permanent yellow tint on light clothing.*

Hypoallergenic: Our natural clean ingredients keep your skin healthy and clear. Many other deodorants contain a surplus of harsh chemical ingredients that can cause rashes, sores, chemical burns, hair loss, scarring, and skin discoloration.*

Warning: Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

Storage: Store in a cool, dry place.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

KEY INGREDIENTS

Mineral Salt:

Natural Deodorant works through bacteriostatic action - the prevention of bacteria from multiplying. This is accomplished through salt. Salt remains on the surface of the skin and acts as a coagulant. It constricts protein, a food source of bacteria, so bacteria die, reducing odor. The salt molecules in the alum raise PH levels. Bacteria hate high PH.*

Mineral salt is not an antiperspirant, it doesn't penetrate the skin or clog pores — allowing the body to function naturally.*

Can be a beneficial exfoliant. Thanks to the anti-bacterial nature of salt, it achieves two things by removing debris from cells and killing bacteria that cause inflamed pimples.
