CLINICALLY PROVEN  
NATURAL PERFORMANCE ENHANCER!

T-Max is the culmination of over 60+ years of research. Over 3,000 scientific studies support these positive health benefits.

Tunguska Max was carefully crafted from a proprietary blend of 10 natural adaptogenic herbs and is prepared using a proprietary co-extraction process which makes the Adaptogen Blend 5.5 times more effective than the herbs taken separately. They are then nano sized and fused with Organic Fulvic Minerals.

T-Max provides support to the immune system, reducing stress, improving endurance & stamina, providing increased mental clarity, restoring body balance, and delivering enhanced physical performance.\*

Stress has been linked to the root cause of 80% of all illness. Our Adaptogen Blend has been clinically proven to reduce cortisol (the stress hormone) levels by an average of 40.2% in subjects. It has also been shown to improve athletic & physical performance as well as cognitive performance.
