FEATURES & BENEFITS

Improved Immune Health: Stops inappropriate immune responses before they begin by releasing hydrogen ions, resulting in an electric charge that helps attract free radicals, heavy metals, and other toxins within the body to the Fulvic Minerals, which then act like a detoxification agent.*

Aids the Digestive System: The probiotics and antioxidants help manage and regulate the bad bacteria found in the digestive track, making the entire gut healthier.*

Helps Fight Anxiety: CBD use has been shown to improve some symptoms related to anxiety disorders because of its anxiolytic (anxiety reducing) properties.*

Eases Pain: The body produces endocannabinoids, which are neurotransmitters that bind to cannabinoid receptors in your nervous system. Studies have shown that CBD may help reduce chronic pain by affecting endocannabinoid receptor activity, reducing inflammation, and interacting with neurotransmitters.*

Warning: Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

KEY INGREDIENTS

Nano CBD: CBD is a popular natural remedy used for many common ailments. It is one of more than 100 chemical compounds called cannabinoids that are found in the cannabis plant, Cannabis sativa. CBD is an appealing option for relief from pain and other symptoms without the mind-altering effects of cannabis.*

Nano CBG: A superior bacteria fighter, CBG has antifungal and antimicrobial properties so potent that it can even fight off bacterial strains that are notoriously resistant to antibiotics.*

Nano CBN: Unlike THC, CBN has no psychoactive effects. There is no "high" or any other mind-altering effect from CBN. CBN appears to have multiple health benefits including anti-inflammatory capabilities and calming properties.*

Sunflower Lecithin: Contains high level of phosphatidylserine. This phospholipid possesses unique antioxidant properties. It reduces oxidative stress by suppressing the action of pro-oxidants and enhancing the activity of natural antioxidants.*

MCT Oil: Beneficial for balancing bacteria in the gut microbiota, which in turn has positive effects on the digestive symptom, energy expenditure, and the ability to absorb vitamins and minerals from the food you eat.*

Fulvic Minerals: Attracts electrolytes and other trace minerals to transport nutrients throughout the body, fulvic acid can ensure better nutrient absorption. This also means that it enhances the body's capacity to fight inflammation, thus leading to a stronger immune system.*
