ZORBMAX® DELIVERY TECHNOLOGY

SWYCH® is a scientifically-driven technology company. We specialize in the development and production of superior wellness products, utilizing our proprietary ZorbMax® Delivery Technology. Through our commitment to superior quality, we have solved the limited absorption issue of traditional delivery methods for nutraceutical & cosmeceutical products.

Studies show that less than 55% of all supplements ingested orally ever reach the cell. This is why we have made our products faster acting, delivering

superior absorption & helping you perform at your best. At Swych, our nutrition particles are so small, millions of them could fit on the head of a pin. These tiny particles can easily enter your blood stream & deliver the needed nutrition directly into your cells.

For those who demand nothing but the best! We deliver “MAXIMUM BIOAVAILABILITY”.
