

Tunguska MAX® has been carefully crafted with a blend of extracts of ten adaptogenic plants, combined with 100% organic humic acids with 72 trace elements. Humic minerals are a liquid extract of the fossilized deposits of material from ancient plants. These plants are rich in trace elements, enzymes, amino acids and humic acid.

How to use: Take 2ml per day (10 pumps) under the tongue or mixed in your favorite drink.

Store in the refrigerator after opening and shake well before use.

WARNINGS: Keep out of reach of children under the age of three. Do not exceed the recommended doses for daily intake. Supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle.

This food supplement is suitable for adults, excluding women during pregnancy and breastfeeding.
