

# ALL NATURAL PLANT BASED VEGAN PROTEIN SHAKE

AN OUTRAGEOUSLY DELICIOUS CHOCOLATE VEGAN SHAKE YOU & YOUR KIDS WILL LOVE

Let's be honest, most plant-based shakes taste like trees or grass.

You and your family will love this outrageously delicious Chocolate Fudge shake. It packs in 21 grams of plant protein, 3 grams of carbs, and 6 grams of organic fiber per serving. This is an all-natural Keto Friendly shake that will surely satisfy your tastebuds and your appetite.

Made with the good stuff and none of the bad. Each sip delivers powerful plant goodness.

The SWYCH vegan chocolate protein powder is a plant-based, post-workout recovery drink packed with naturally occurring amino acids & zero added sugar. Superior taste & quality - It contains high-quality pea protein.

Mixes Silky Smooth, it mixes silky smooth in a glass or shaker bottle with water, smoothies, almond milk, oat milk, or your non-dairy shake of choice.

Natural Clean Ingredients - Sugar Free, Gluten Free, Dairy Free, Non-GMO, and Vegan Friendly. We use NO artificial flavors, sweeteners, colors or preservatives. It is great for the entire family including kids.

## ZORBMAX® DELIVERY TECHNOLOGY

SWYCH® is a scientifically driven technology company, specializing in the development and production of superior wellness products utilizing our proprietary ZorbMax® Delivery Technology. We have solved the limited absorption issues of traditional delivery methods for nutraceutical & cosmeceutical products. Studies show that less than 55% of all supplements ingested orally never reach the cell.

Our products are faster acting, deliver superior absorption & help you perform at your best. We create nutrition particles that are so small, millions of them could fit on the head of a pin. These tiny particles can easily enter your blood stream & deliver the needed nutrition directly to your cells.

**For those who demand nothing but the best!**  
**We deliver "MAXIMUM BIOAVAILABILITY".**

\* Percent Daily Value (DV) established on a 2,000 calorie diet.

† Percent Daily Value (DV) not established.

**OTHER INGREDIENTS:** Pea Protein Isolate, Inulin, MCT Oil Powder, Coconut Water Powder, ZorbMax®, Cacao Powder, Stevia Extract and Xanthan Gum.

## HOW TO USE:

For best results, mix 1 scoop with 8-10 ounces of any milk product (dairy, almond, oat, etc). Water or juice can also be used. Shake briskly in a shaker cup or blender bottle until dissolved for a tasty chocolate shake. For best results, drink within 15 minutes.

## FEATURES & BENEFITS

**Boosts Overall Health:** When you want to build a healthy body, you have to get the right amount of protein. Protein is a critical part of the processes that helps make antibodies that fight off infections and illnesses, while keeping cells healthy so they can create new ones.\*

**Aids in Building Muscle Mass:** Protein is one of the most essential components of muscle development, bone density, muscle mass, and lean tissue. It is extremely important in building muscle because the amino acids help repair and maintain muscle tissue. After a workout, protein helps you recover from workouts because muscles slightly tear during exercise.\*

**Improves Athletic Performance:** Iron is needed to make myoglobin, the protein that provides oxygen to the muscles. Many athletes may have inadequate iron intake from their diet to support performance.\*

**Encourages Satiety & Weight Loss:** Research has found that protein helps people feel fuller for longer than carbs or fat. This means that high-protein diets may reduce overall calorie intake and lead to gradual weight loss over time.\*

**Warning:** Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

**Storage:** Store in a cool, dry place.

## KEY INGREDIENTS

**Pea Protein Isolate:** Pea protein is a supplement made by extracting protein from yellow peas. Pea protein is a high-quality protein and a great source of iron. It can aid muscle growth, weight loss, and heart health. \*

**Vitamin D:** Vitamin D is a fat-soluble vitamin. Getting enough vitamin D helps the growth and development of bones and teeth, as well as provides improved resistance to certain diseases. \*

**Calcium:** Calcium is an essential nutrient found in dark-green leafy vegetables, legumes, and fortified foods. The most abundant mineral in the body, 99% of calcium is stored in the bones and teeth. Calcium is also important for circulation, hormones, muscle, and nerve health. \*

**Iron:** Iron is needed for your body to produce hemoglobin, which helps red blood cells (RBCs) carry oxygen throughout the body, and myoglobin, which is a protein that helps provide oxygen to the cells in your muscles. \*

**Potassium:** Potassium is an essential mineral that is critical to many body functions, including the delivery of nerve signals, contraction of muscles, regulation of heartbeats and blood pressure, movement of nutrients into cells, and removal of cellular waste. \*
