ZORBMAX[®] DELIVERY TECHNOLOGY

SWYCH[®] is a scientifically driven technology company, specializing in the development and production of superior wellness products utilizing our proprietary ZorbMax[®] Delivery Technology. We have solved the limited absorption issues of traditional delivery methods for nutraceutical & cosmeceutical products. Studies show that less than 55% of all supplements ingested orally never reach the cell.

Our products are faster acting, deliver superior absorption & help you perform at your best. We create nutrition particles that are so small, millions of them could fit on the head of a pin. These tiny particles can easily enter your blood stream & deliver the needed nutrition directly to your cells.

For those who demand nothing but the best!
We deliver “MAXIMUM BIOAVAILABILITY”.

KEY INGREDIENTS

Nano CBD:

- CBD is a popular natural remedy used for many common ailments. It is one of more than 100 chemical compounds called cannabinoids that are found in the cannabis plant, Cannabis sativa. CBD is an appealing option for relief from pain and other symptoms without the mind-altering effects of cannabis.*
- CBD is a powerful antioxidant with some serious neuroprotective properties, which makes it a strong line of defense against neurodegenerative diseases, as well as preventing certain types of free radical damage.*

Shea Butter:

- Works as a skin-conditioning agent by forming a protective layer on the skin and retaining water, which helps your skin remain hydrated and moisturized.*
- Shea butter's ability to penetrate the skin swiftly along with the presence of anti-inflammatory agents, like cinnamic acid and fatty acids, will calm inflammation and lead to quick relief from skin-related issues.*
- As shea butter is packed with ingredients like vitamins A and E, it's useful to treat sensitive and irritated skin.*
