- **Increased Energy.**
- **Supports the body's own natural sugar levels.**
- **Supports fat metabolism.**
- **Support for brain health and focus.**
- **Improved oxygen delivery.**

KEY INGREDIENTS

Premium Colombian Coffee: Colombia offers the perfect growing conditions, offering the ideal weather and geographical conditions for producing coffee, which is considered some of the best in the world.

Vitamin B3: Niacin, also known as vitamin B3, is an important nutrient. In fact, every part of your body needs it to function properly. Studies show that Vitamin B3 can help lower cholesterol, ease arthritis, and boost brain function. *

Potassium: Potassium is an essential mineral that is critical to many bodily functions, including the delivery of nerve signals, contraction of muscles, regulation of heartbeats and blood pressure, movement of nutrients into cells, and removal of cellular waste. *

KEY INGREDIENTS

L-Theanine: Has anti-stress effects because it inhibits cortical neuron excitation. Theanine has been found to cross the blood-brain barrier, and when taken orally it can increase brain concentrations of the compound for up to five hours. *

Garcinia Cambogia Fruit Extract: Contains hydroxy citric acids, also known as HCA, which help reduce appetite in some people. It has also been shown to accelerate fat oxidation and decrease fat production in the body. *

Ashwagandha: Has been used for thousands of years to relieve stress and improve concentration. *

5-HTP: Helps raise serotonin levels in the brain. Since serotonin helps regulate mood and behavior, 5-HTP may have a positive effect on sleep, mood, anxiety, appetite, and pain sensation. 5-HTP is not found in the foods we eat. *

Green Tea: Contains catechins - natural antioxidants that help prevent cell damage and provide other benefits. These substances can reduce the formation of free radicals in the body, protecting cells and molecules from damage. Green Tea also contains the amino acid L-theanine, which has an anti-anxiety effect. *

Rhodiola Rosea: Optimizes serotonin and dopamine levels, enhancing feelings of well-being, rest, and relaxation. *

Chromium Picolinate: Low chromium levels can increase blood sugar, triglycerides and cholesterol levels, and increase the risk for diabetes and heart disease, according to Mount Sinai. Chromium has also been seen as helpful in reducing obesity, building muscle, lowering blood pressure and fighting depression. *

Warning: Keep out of reach of children. Not intended for individuals under the age of 18. Consult your healthcare provider prior to use if you are pregnant, attempting to become pregnant, nursing, taking medications, or have any health care concerns. Do not use if safety seal is broken or missing.

Storage: Store in a cool, dry place.
