HOW SWYCH STRYPS WORK

- SWYCH STRYPS™ go on or under the tongue - or inside the cheek.
- SWYCH STRYPS™ contain nano sized nutrients that are embedded in an oral dissolvable STRYP.
- The inside lining of your cheeks and mouth contain tissue that is designed to allow the easy passing of nutrients directly into your bloodstream & directly to your cells.
- What makes this technology unique is that **SWYCH STRYPS™** deliver the active nano nutrients directly & quickly into the bloodstream to where they are needed, providing rapid results. All in a precisely measured dose that bypasses the gastrointestinal tract.
